Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 April 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 46-49 are rejected under 35 U.S.C. 102(b) as being anticipated by Allan GB 2,205,309.

Allan '309 teaches a lid comprising an annular sidewall (4), drink opening (5) disposed in a channel, wave breaker recess (1), a recess first portion (diametrically opposite wall (8)), and a convex recess second portion (8). Because the sidewall second portion is within the concentric boundary of sidewall/top wall (3), it extends across a "center portion" of the lid.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 50-54 are rejected under 35 U.S.C. 103(a) as being unpatentable over Michael US 2,534,614 in view of Wong 6,325,236.

Michael '614, fig 2, teaches a beverage cup lid having a top wall with a generally circular periphery, a downwardly depending annular sidewall, drinking opening (20) disposed in a channel, wave breaker recess including a sidewall first portion (24) and second portion (26). Because the sidewall second portion is within the concentric boundary of sidewall/top wall, it extends across a "center portion" of the lid.

Michael '236 does not teach the lid having an annular recess for receiving the lid of a cup in a liquid tight fashion, instead disclosing a friction fit connection. The connection appears fragile, and could

Art Unit: 3727

be undone if there is moisture within the contacting surfaces of the cup and closure, or if dropped by an infant.

Wong '236 teaches a cup lid having an annular recess for receiving the lid of a cup in a liquid tight fashion.

It would have been obvious to replace the friction fit means of connecting the lid of Michael '614, with the container bead and closure recess snap connection taught by Wong '236, motivated by the benefit of a secure liquid tight connection.

Allowable Subject Matter

5. The indicated allowability of claims 46-54 is withdrawn in view of the newly discovered reference(s) to Allan GB 2,205,309 and Michael US 2,534,614. Rejections based on the newly cited reference(s) follow.

6. Claims 2-8, 20-23 and 33-45 are allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
